Superintendent's Highlights

The district moved forward on several fronts in spite of the economic and political climate. Taxpayers recognized the need for a new fine arts/sports facility and passed a bond to initiate the process. Although politicians continued their challenging ways, they had provided an interest subsidy that helped with the passage of the bond.

Teachers worked cooperatively during the year with their grade level peers from Bear Lake and Oneida school districts to refine the aligned curriculum at grade level in mathematics and language arts.

Progress Towards Meeting District Goals

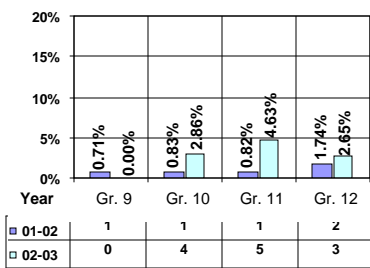

2002-03 Goals	Progress
Align the Curriculum	The district continued aligning the curriculum. Teachers worked with grade level peers from two other districts refining the grade level curriculum
Understand the assessment process	Another year using what has become the ISAT assessment from NWEA is bringing about greater understanding in how standards and instruction are linked.
Physical plant	The community passed a bond for a new fine arts / physical education facility and long due renovation of the existing high school. The new facility will be shared by the high school and middle school.
Balance the budget.	State woes continued to distress the local financial picture.
